

A Level Bridging Work

Product Design

An awareness of the world of design will be invaluable to you as you continue your Product Design studies at A Level.

Task 1

Over the summer break I would like you to visit **at least** one place that will enable to see products/objects of design that may be new to you. Locally you may wish to consider:

- Arnolfini – Bristol
- The Guild – Park Street – Bristol
- The Architecture Centre - Bristol
- Find an example of some interesting architecture in the flesh?

You may go further afield, I am looking forward to seeing what you find!

Task 2

Choose one piece of design that really interests you and photograph it.

Task 3

Make a 60 second presentation about the piece you have chosen.

Why did you choose this piece, what it's made of, how you think it might be made?

Task 4

This will be delivered to the class in the first lesson in September.

No PowerPoint!!

Task 5

You will also need to purchase a copy of this textbook prior to starting in September: -

AQA Design & Technology: Product Design (3-D design) AS/A2 by Will Potts and Brian Evans
